

Report to the Executive Board of the Wyoming Library Association  
November 16, 2006

There were over thirty SSLMP participants in the WLA post conference - AASL Leadership Through Collaboration Institute. The evaluative comments were overwhelmingly positive.

We have been in contact with Great Northern Books and are looking at a section meeting in April. We would like to explore topics for the spring meeting that would appeal to other sections as well. One such topic is an ALA advocacy workshop. It is my understanding that ALA provides this workshop free—but I will further my homework and will entertain suggestions from other members of the Executive Board for program ideas that will appeal beyond the school and children's sections.

AASL will be meeting in Reno in 2007. SSLMP is looking at becoming an affiliate again. I have the proper paperwork and am working on the process.

Respectfully submitted by Mary Jayne Jordan
